## PRIMARY COVERAGE OPTIONS

The Hartford's CPPI+ coverage options include:

- **Coverage A – Contractors Professional Liability** provides comprehensive third-party liability coverage to contractors that perform or contract for design-related or other professional services. Covering loss and claim expenses arising from an actual or alleged negligent act, error or omission in the rendering of or failure to render professional services.
- **Coverage B – Contractors Protective Indemnity** provides comprehensive first-party protective indemnity coverage to contractors that subcontract design-related or professional services to other professionals, such as designers, architects or engineers. Provides the contractor with an excess layer of indemnity protection over the design professional's errors and omissions coverage.
- **Coverage C – Professional Rectification Expense** covers costs incurred by the contractor for corrective actions to rectify design errors that would otherwise result in a professional liability claim if not corrected.
- **Coverage D – Construction Job Site Pollution** – Covers damages for bodily injury, property damage, environmental damage, natural resource damage and associated remediation costs that result from a pollution incident caused by covered or completed operations at a construction job site.
- **Coverage E – Pollution Emergency Mitigation Expense** – Covers expenses to mitigate a pollution incident caused by covered operations at a construction job site.
- **Coverage F – Construction-Related Transportation Pollution** – Covers damages for bodily injury, property damage, environmental damage, natural resource damage and associated remediation costs resulting from a pollution incident that takes place during the course of transportation to or from a covered owned location or a construction job site.
- **Coverage G – Non-Owned Disposal Site (NODS) Pollution** – Covers damages for bodily injury, property damage, environmental damage, natural resource damage and associated remediation costs that result from a pollution incident on, at, under or migrating from a non-owned disposal site.
- **Coverage H – Pollution Legal Liability – Covered Owned Location** covers damages for bodily injury, property damage, environmental damage, natural resource damage and associated remediation costs that result from a pollution incident which begins and ends within 10 days and is on, at, under or migrating from a covered owned location.
