

KNOW TWO WAYS OUT!

Firefighters say you should know two ways out of each room in your house. You and your family should practice using those two ways out just in case of fire.

This drawing shows the rooms in a house. Find two ways (doors and windows) out of each room and color them. Now color the pieces of furniture. Carefully cut them out and paste them in the correct room.

Once you get out of a burning building, **DO NOT GO BACK.** Do not go back for a toy or a pet. **GET OUT and STAY OUT!**

SMOKE ALARMS ARE THE SAFE WAY.

A smoke alarm should be installed on every floor of a home. In this house, draw a circle to show where you think a smoke alarm should go.
