ADDITIONAL COVERAGES ESPECIALLY FOR POULTRY OPERATIONS

Customize your coverage with the following options:

- **Poultry Power Interruption and Mechanical Breakdown Coverage:** Adds power interruption and mechanical breakdown to the poultry coverage as covered causes of loss where the failure of a building's ventilating equipment is caused by the interruption of power or a mechanical breakdown - resulting in the death of covered poultry.
- **Poultry Manual Start Back-Up Generator System:** Amends the poultry power interruption and mechanical breakdown coverage to allow a manual start back-up generator system in place of the normally required automatic start back-up generator system.
- **Loss of Egg Income Coverage:** Adds coverage for the loss of egg income to the poultry coverage where the loss of income is caused by the suspension of egg production. The suspension of egg production must result from the covered loss of covered poultry.

- **Loss of Income from Meat Birds Coverage:** Amends the poultry coverage with loss of income coverage for meat birds described in a tentative placement schedule. The loss of income must result from the covered loss of the described meat birds. Coverage for the loss of income resulting from the inability to place covered meat birds due to a building's destruction by a specified cause of loss is also included.
