### ADD MORE WEIGHT TO YOUR SWINE PROTECTION PLAN

Our specialized program makes The Hartford the leading choice for confined swine insurance. You can customize a plan that suits your needs with:

- **Power interruption and mechanical breakdown coverage.** Amends your confined swine insurance to cover the death of covered swine in case a building's ventilating equipment fails due to interruption of power or a mechanical breakdown. Two separate endorsements are available:
  - » Coverage for power interruption only; or
  - » For both power interruption and mechanical breakdown.
- **Manual start back-up generator system.** Amends your power interruption and mechanical breakdown coverage to allow a manual start back-up generator system. (Normally, an automatic start back-up generator system is required.)
- **Contaminated feed coverage.** Adds contaminated feed to your confined swine coverage as a covered cause of loss where the consumption of a toxic substance in feed or water results in the death of covered swine.
- **Reproductive impairment coverage.** Amends the confined swine coverage to include coverage for the reduction in value of covered swine should a covered loss result in reproductive impairment.
- **Contract penalties coverage.** Amends the confined swine coverage to pay contract penalties assessed should the death of swine caused by a covered loss result in your failure to deliver contracted swine.
